Name: _____ Date: _____

AI EXPLORER LOG

Instructions: Each planet you visit will reveal something new about artificial intelligence (AI). Use this log to take notes, reflect, and show what you've learned. You'll need it to earn your **AI Explorer Certificate** at the end of your mission!

Planet 1: Botopia

Mission Reflection:	
In your own words, what makes AI different from a regular computer program?	Example of AI you've seen in real life:

Planet 2: Tierria

Mission Reflection:	
What are the three main types of AI?	Which type of AI do we use most today?

Name: _____ Date: _____

AI EXPLORER LOG

Planet 3: Cognitron

Mission Reflection:	
What does it mean when we say AI "learns"?	If you showed an AI a picture of a cat and it told you it was a dog, what might be going wrong?

Planet 4: Healara

Mission Reflection:	
What is one way AI is helping people?	What is one way AI is helping the planet?

Name: _____   Date: _____

AI EXPLORER LOG

Planet 5: Ethica

Mission Reflection:	
What AI challenge or risk most concerns you? Why?	How can humans make AI more fair and responsible?

Final Thoughts

What are the three most important things people should know about AI?		

AI EXPLORER CERTIFICATE

Official AI Galaxy Mission Achievement

Presented to: _____

For successfully completing the AI Odyssey: Journey Through the AI Galaxy and demonstrating curiosity, critical thinking, and creativity in learning about artificial intelligence. You have earned the title of **Certified AI Explorer** for:

- Learning and understanding how AI works

- Recognizing both the benefits and challenges of AI

- Showing how humans and AI can create a better future together

Congratulations, Explorer! You've helped prepare Earth for a smarter, more connected future!
