

Human Sexuality & Reproduction Education Permission Form

To support the physical, mental, social, and emotional needs of our students, our school includes content related to human sexuality and reproduction in our health education curriculum. This district-approved instruction includes a homework component, which we encourage families to use as an opportunity to discuss the information shared in the class. Discussion topics include:

- ❖ Abstinence until marriage
- ❖ Dating responsibilities and respect
- ❖ Effective and assertive communication
- ❖ Male and female reproductive systems
- ❖ Prenatal development and childbirth
- ❖ Sexually transmitted infections and prevention
- ❖ Birth control

Due to the sensitive nature of these topics, all students must have parent/guardian consent prior to participating in this portion of the health education curriculum. Please complete the following steps to communicate whether your student will be allowed to participate.

- Step 1: Complete the Student Information section in full.
- Step 2: Review the Participation Permissions listed.
- Step 3: Complete the Parent/Guardian Signature section in full.
- Step 4: Initial the Participation Permission for which you give your approval.
- Step 5: Return your completed form by _____.
